Youness Safouani

DATA ANALYST | SQL | POWER BI

Montreal, Quebec | youness.analyses@gmail.com | GitHub | LinkedIn

PROFESSIONAL PROFILE

Bilingual professional specializing in SQL, Power BI and data quality, with more than 7 years of experience in technology environments where information analysis, validation, diagnostics and communication of results are essential. Skilled at cleaning and structuring data, building performance indicators and presenting clear findings to operational teams.

CORE SKILLS

Power BI	Power BI Desktop, Power Query, DAX, relational modelling, measures, KPIs and interactive dashboards
SQL	Joins, CTEs, subqueries, aggregations, window functions, views, cleaning and validation
Python and Excel	Python, Pandas, NumPy, Excel and CSV for exploration, transformation, control and automation
Analytics	Profiling, data quality, segmentation, trends, classification, regression and concise findings
Data systems	ETL/ELT, PostgreSQL, MySQL, SQLite, Snowflake, MongoDB, Spark and Kafka

PROFESSIONAL EXPERIENCE

Service Technician - Telecommunications and Technical Support

Quebecor Inc. and subsidiaries | Montreal, Quebec | Oct. 2018 - 2026

- Analyzed service records and diagnostic data to identify incident causes and recurring issues.
- Validated the accuracy and consistency of recorded information before follow-up or escalation.
- Structured and documented intervention results to maintain a reliable and traceable history.
- Compared technical results, identified anomalies and communicated findings to users and relevant teams.
- Translated complex technical information into clear explanations and recommendations that supported decisions.

Technical Support Technician - Telecommunications

Bell Canada | Montreal, Quebec | May 2013 - Oct. 2018

- Collected, verified and interpreted diagnostic data for Internet, Wi-Fi and connected-device services.
- Compared test results to detect anomalies and isolate the source of a problem.
- Recorded interventions and outcomes in tracking systems to support data quality and case continuity.
- Presented technical conclusions in language clients and internal teams could understand.

DATA ANALYTICS AND SOLUTIONS EXPERIENCE

Data Analytics and Business Intelligence

Independent and academic work | Montreal, Quebec | 2025 - 2026

- Cleaned, reconciled and validated datasets with SQL, Python and Excel before analysis.
- Built Power BI dashboards using Power Query, DAX, relational models and performance indicators.
- Completed a telecommunications customer-churn analysis involving segmentation, trends and predictive modelling.
- Designed ETL/ELT data flows and documented transformation rules and data-quality controls.
- Developed a local financial-data processing solution to classify, extract, verify and export information.

EDUCATION AND CERTIFICATION

AEC - Big Data Development (LEA.C0)

Collège de Bois-de-Boulogne, Montreal | 2025 - 2026

SQL, Power BI, Python, statistics, visualization, ETL/ELT, databases, Spark, Kafka, Snowflake and cloud computing.

IBM Data Analyst Professional Certificate

IBM SkillsBuild

Data analysis, Excel, SQL, Python, visualization, dashboards and communication of results.
